

Super sized gift bow

Cut the following strips of wallpaper:

- 3 pieces of 40 x 3 cm
- 3 pieces of 35 x 3 cm
- 2 pieces of 30 x 3 cm
- 1 piece of 10 x 3 cm

How to make your gift bow:

- Place a small piece of double sided tape at each end of the strip on the patterned side.
- Gently fold each piece of paper and pinch gently at the halfway point to create a faint line across the strip.
- Take one of the longest strips and face the wrong side of the wallpaper up. Loop the paper into a hood shape, so the pattern is showing and has created a point.
- Make sure the short edge of your strip meets the pinch mark in the middle of the strip.
- Peel the backing from the tape and stick in place.
- Repeat on the other side making sure the two ends meet at the middle marker.
- Continue to make all of the strips in the same way.
- Take the three large strips and position on top of each other, to create a 6 - pointed star, using double sided tape on the underside to hold in place.
- Add in the medium sized strips one by one and position to match the large strip star points.
- Add the two small strips.
- Roll the small piece into a tube and stick together with tape. Place a small piece of tape on the bottom where the two ends meet and place in the centre of your gift bow.
